  - Modular, Plug-&-Play Power Distribution • Fast, Tool-Free Installation
- Flexible Connector & Fixture Positioning • Adjustable & Directional Lighting
- Ideal for Retail Shelving & Product Displays • Energy-Efficient LED Technology

# ADJUSTABLE SHELF ILLUMINATION SYSTEM (ASIS)

## Product Overview

The slimline 'Adjustable Shelf Illumination System' (ASIS) delivers a sleek, flexible lighting solution for adjustable shelving, eliminating the need to cut, adjust, or rewire lighting with every shelf change. Supporting low- to high-power LED strips, it ensures optimal product illumination across dynamic retail, gallery, and display environments. Operating on 12–48V DC, it offers a safe, low-voltage, energy-efficient solution that is both user and customer-friendly.
